Open Ended Instructor Questions

Please provide comments or suggestions about the GSI

Comments
I came to OH and Jordan seemed a bit confused on the material (notably project 2). Brushing up some on the project before continuing to GSI could be valuable; otherwise, nice explanations and enthusiasm.

GSI's were great!
thanks for your help in OH Jordan, good hints/explanations
I felt that Jordan didn't understand how lost I was sometimes, and I sometimes her way of helping made me feel dumb. I understand that she is trying to guide me to think of a solution, or a concept, on my own terms, but the way that she did it felt condescending at times or like she was frustrated I wasn't thinking good enough on my own. She would respond to my questions with questions that I didn't know the answer to either and would tell me that she is going to let me think about it. Even when I tried to convey to her just how confused or how lost I was, or share my understanding so far, she was always really firm in asking me "guiding questions" or giving me time to think when really that was not what I needed to be helped. I wish she had instead asked questions to get a better idea of where my understanding is, so that she could better adapt her teaching methods to me.

If you have additional comments regarding your experience around climate and inclusion in the classroom, please share them here
