Instructor Ratings

The GSI's instructional activities, contributions, and/or feedback enhanced my learning. ("Learning" may include gaining mastery of course content and new skills, exposure to new methodologies and modes of critical thinking, and extending the ability to express oneself on the topics treated in the course.)

The GSI created an environment in which I could feel included (for example, encouraged multiple voices/perspectives, welcomed questions and critiques, responded to student feedback).

Jordan was kind, encouraging and a great GSI! She's very approachable and cares about her students' learning. I presume she did a lot of behind the scenes work, given how attentive she was with students' emails and concerns. However, I'd encourage her to slow down and explain difficult concepts in greater depth – more than what's already written on each slide.
Thought she was great
I have a lot of respect and admiration for Jordan. Beyond her technical understanding of the course material I really appreciate her human side. She does a lot to support students and make sure that we get the help we need outside of the classroom. I know from my own experience talking to her and getting student support from her, i would not have survived this summer without it. It truly means the world to me that she is able to provide us with this level of support and i hope other courses adopt the same kind of system that jordan integrates.
na
I think Jordan's lectures feel like she's just reading off the slides. I definitely prefer the other lectures from Ashley and Peyrin over Jordan.
i did not attend lecture

I appreciate that Jordan always prioritized the course climate and was very kind and accepting towards students :)
great job!
Thank you so much everyone on the CS161 Staff, I have really enjoyed this class thanks to all the support and kindness of everyone on staff :)
As a senior, CS 161 this summer is easily in my top 5 classes at Berkeley thanks in large part to Jordan and Ashley's incredible lectures, passion, and support. Please keep teaching, y'all are awesome! :)
Jordan and Ashley were both rock stars this semester!
She would often simply read off the slides without offering any additional insight and skip over bullet points in the slides.

If you have additional comments regarding your experience around climate and inclusion in the classroom, please share them here

good at being understanding of students
Very safe and inclusive class climate. Very likely the safest I've felt in a class at Berkeley, and with this being a computer science class means so much to me. Jordan is incredible
As a DSP student, Jordan made me feel comfortable and safe in the course in asking for any accommodations or extensions. Whether it be through Ed Posts, lecture, or emails, they really care about the mental health of the students and create a relaxed learning environment that allows students to focus on learning and also have time to breathe when needed.

Very engaging lecturer.
