Please provide comments or suggestions about the GSI

Comments
They were very approachable whenever students had questions and was pretty positive whenever it came to discussing exams. I would recommend this gsi to future students in the course.
Helpful!
N/A
Jordan is the best GSI I have ever had in Cal. They always encourage classroom discussions, are very understanding of student needs, and are extremely enthusiastic about teaching. They created an environment where students felt very comfortable to ask questions. All of our questions were answered thoroughly. Their mini lectures were extremely effective, they explained the topic and discussion problems very well. I felt like I could talk to them about any issues and they would understand. It is quite rare that a GSI creates such comfortable environment in the classroom. Jordan deserves a raise!
Never met this GSI.
N/A
I really enjoyed her enthusiasm towards teaching and her ability to capture the attention of the students. She did a good job of always communicating with us and tailoring the discussions towards our individual needs.
She gave very straight forward explanations and her labs were designed in an encouraging manner.

I LOVED having Jordan as my GSI for my section. She loves teaching and its evident when she was lecturing us in class. Her slides were straightforward and she made sure to point out little things that cause students to become confused in CS61A. Her slides were never too cramped and were very easy to read. Furthermore, she always encouraged us to ask questions. This resulted in our section being very active and everyone learning from each other. Jordan also does line order calling, which was very helpful during the semester. Hearing other students thought process and mistakes helped the whole class learn altogether. Ill miss having her as a GSI, but wish her the best!
I did not have this GSI.
Jordan was a good GSI. In the beginning, she would lecture too much during labs and not leave us with enough class time in order to finish the lab but as time progressed she got better. She lectures well and left us with enough class time to finish labs. Also when wifi was down or something happened with technology she made the most of it and tried her best to teach.
She's literally amazing and super patient and explains with tons of visuals.
