Jordan does a great job in explaining questions. She also prepares each discussion carefully and encourages breakout room and group study a lot.
She really ensures everyone is comfortable in her section. The way she breaks down concepts is just great.
She's so patient and passionate!
Try to be more confident, sure, and firm when elaborating ideas! You are a great GSI and you sound even better when you reduce the number of "ums"! I really enjoyed your classes!

Personable and very helpful during Office Hours!
Very helpful with office hour questions!
One of the best TAs, she was very friendly and answered question very effectively. She gave a lot of visual examples, drew tree and recursion calls out to show what was physically happening. She went to great depth and cautioned about the possible problems that could happen within a certain topic before hand and that was very very helpful.
